

PROVIDENCE COLLEGE BACCALAUREATE SOCIAL WORK PROGRAM

ASSESSMENT OF STUDENT LEARNING OUTCOMES

LAST COMPLETED ON MAY 2015

Form AS4 (B) Duplicate and expand as needed. Provide table (s) to support self-study narrative addressing the accreditation standards below.

This form is used to assist the COA in the evaluation of the program's compliance with the accreditation standards below:

4.0.2 *The program provides summary data and outcomes for the assessment of each of its competencies, identifying the percentage of students achieving the benchmark.*

4.0.4 *The program uses Form AS 4 (B) and/or AS4 (M) to report assessment outcomes to its constituents and the public on its website and routinely up-dates (minimally ever 2 years) these postings.*

All Council on Social Work Education (CSWE) programs measure and report student learning outcomes. Students are assessed on their mastery of the competencies that comprise the accreditation standards of the Council on Social Work Education. These competencies are dimensions of social work practice that all social workers are expected to master during their professional training. A measurement benchmark is set by the social work programs for each competency. An assessment score at or above that benchmark is considered by the program to represent mastery of that particular competency.

Providence College Department of Social Work adopts SWEAP's (Social Work Education Assessment Project) benchmark of 5.0 for each competency. An assessment score at or above that benchmark is considered by the program to represent mastery of that particular competency. All 2015 scores are well above the benchmark of 5.0.
